Subject: Sponsorship Application for B2B Sales Closure (AI Bot) .

Dear Sir/Madam,

I hope this message finds you well.

My name is **Kamrul Hasan**, a software developer with years of experience in programming and digital solution development. Over the past years, I have worked on building robust, scalable systems across industries and am now transitioning into entrepreneurship to support businesses with AI based automation system.

I am currently developing an **AI-integrated** marketing automation and automated sales platform designed to help businesses automate customer outreach, lead generation, follow-ups, and sales processes efficiently.

I am seeking BDT 600,000 in sponsorship funding to support 12 months of full-time development of this software. In return, sponsors will receive a commercial license, priority support, and early investment opportunities.

Upon completion of the software, the sponsor will be provided with a full commercial copy of AlgoSale, granting the right to use the software within their organization for internal business operations. Sponsors will also receive priority technical support and early access to future updates and improvements.

In addition to software access, sponsors will have the opportunity to participate as an equity partner, subject to mutual agreement and future negotiation.

The sponsorship funding will be used to support full-time development, infrastructure, testing, and deployment of the platform.

Yours sincerely,

Kamrul Hasan
